Shikshan Prasarak Mandal's Gopal Krishna Gokhale College, Kolhapur Course Outcomes Department of Geography

| Class | Semester | Paper Name & Number | Outcomes |
|----------------|----------|--|--|
| B.A. I CBCS | SemI | DSC 1 - Physical Geography Paper No I | The students will get introduced to the subject of Physical Geography. They will get the introductory knowledge of the scope of the Physical Geography. The students will understand the branches of Physical Geography. The students will go through the concept of Atmosphere. They will get the knowledge of Composition and Structure of the Atmosphere. The students will go through the concept of Insoltion: Factors affecting on Insolation. They will get the detail information about Temperature: Distribution of temperature (Vertical and Horizontal). The students will go through Atmospheric Pressure: Belts and Planetary Winds. They will get the introductory knowledge of the Lithosphere. The students will go through concept of Wagner's Continental Drift Theory. They will understand the causes and effect of Earthquakes and Volcano. The students will understand the Denudation Processes. |

| T | | <u>г</u> | |
|--------------|-----------|--------------------------------|--|
| | | | 1. The students will get introduced to the subject of Human Geography |
| | | | 2. The students will understand definition of Human Geography. |
| | | | 3. They will know the different aspects of branches and Importance of Human |
| | | DSC 2 | Geography. |
| | a | Human | 4. The students will be able to determine the parameters and indices of the |
| | SemII | | population. |
| | | Geography | 5. The students will identify all the aspects of Population Geography. |
| | | Paper No II | 6. They will gain the knowledge of Migration and its types. |
| | | | 7. Students will get more information of the Settlement Geography. |
| | | | 8. They understood the concept in the Agricultural Geography. |
| | | | 9. They will go through the different types of Agricultural, Factor affecting on it. |
| | | | 1. Students will know soil geography which is the fundamental branch of |
| | | | Physical Geography. |
| | | | 2. Students will understand the basics and fundamental concepts of soil |
| | | | geography. |
| B.A. | | DSC 3 | 3. Students will understand soil is key resource for the development of any |
| II | | Soil Geography Paper No III | country. |
| | | | 4. They will aware about process of soil formation and development as well as |
| CBCS | | | soil Properties. |
| | | | 5. Students will know the classification, characteristics and distribution of soils. |
| | | | 6. Students will understand the concepts related to soil degradation and erosion, |
| | | | causes and controlling factors of soil erosion, conservation of soils.7. They will know the concept, need and methods soil of management |
| | · | | They will know the concept, need and methods soll of management Student will understand the concept and classification of Resources. |
| | | DSC 4 | Student will understand the concept and classification of Resources. They will know examine the major resources (water, forest, energy and human) |
| | | Resource | with their Distribution, utilization and problems. |
| | CorrectIT | | 3. Students will study the sustainable resource development. |
| | SemIII | Geography | Students will study the sustainable resource development. They will know the cartographic techniques in the Geography. |
| | | Paper No IV | They will understand the basics in Cartography and Map making. |
| | SemIV | DSC 5 | 1. Students will know oceanography is the fundamental branch of Physical |
| | | | Geography. |
| | | Oceanography | 2. They will know the basic and fundamental concepts of oceanography. |
| | | paper No. V | 2. They will have a cubic and rendamental concepts of occanography. |
| <u>نىسىن</u> | <u> </u> | | |

| | | 1 | |
|-------------|------|----------------|---|
| | | | 3. Students will understand marine is key resource for the development |
| | | | of any country. |
| | | | 4. Students will know physical and chemical properties of oceans. |
| | | | 5. They will know types of oceanic currents and currents of Atlantic, Pacific |
| | | | and Indian oceans. |
| | | | 6. Students will know hypsographic curve, wind rose, iso-salinity lines and |
| | | | isotherms |
| | | | 1. The students will get the knowledge of Definition, Nature, Scope and |
| | | | Significance of Agricultural Geography. |
| | | | 2. The students will be familiar with the knowledge of Evolution of agriculture: |
| | | DSC 6 | Ancient, Medieval and Modern Period. |
| | | | 3. They will know the different processes of Systems and Land-use. |
| | | Agricultural | 4. The students will acquire the knowledge of processes of Nomadic Herding, |
| | | Geography | Livestock Ranching, Sifting Cultivation, Intensive Subsistence Farming, |
| | | e i i | Commercial Farming and Horticulture. |
| | | paper No. VI | 5. They will be familiar to the Von Thunen's Theory of Agricultural land-use. |
| | | | 6. The students will go through the processes of regionalization and its problem. |
| | | | 7. They will understand the problems in the Agricultural Sector. |
| | | | 8. Students will understand the sustainable Agriculture. |
| | SemV | | 1. The students will get knowledge of Ancient Periods. |
| | | DSC 7 | 2. They will understand of Greeks and Romans philosophers. |
| | | Evolution of | 3. They will get the knowledge of Muslim World. |
| | | Geographical | 4. The students will study European philosophers. |
| DA | | Ŭ - | 5. They will go through the Humbol, Ritter, Blache, Brunhes, Saur, Huntigton, |
| B.A. | | Thought | Mackinder and Herbertson. |
| III | | Paper No. VII | 6. They will study Dualisms in Geography. |
| CDCS | | - | 7. They will understand Trends in Geography. |
| CBCS | | DSC 8 | 1. The students will understand Physical Profile of India. |
| | | Geography of | 2. The students will get knowledge of Soil and Forest in India. |
| | | | 3. They will get the knowledge of Minerals and Power Resources. |
| | | India | 4. They will go through the Agriculture and Industry |
| | | Paper No. VIII | 5. The students will know about the trends in Indian economy. |

| | DSC 9 Population Geography Paper No. IX | The students will study definition, nature and scope of Population Geography. They will study Population growth and distributions. They will study the Population dynamics. The students will get knowledge the concept of Fertility, Mortality, Migration.etc They will study the Composition and Characteristics They will study Age, Sex, and Literacy: Causes, Effect and Measures |
|-------|--|--|
| SemVI | DSC 10 Economic Geography Paper No. X DSC 11 Urban Geography Paper No. XI | In depth understanding about the economic geography. Detailed knowledge about locational factors of economic activities with special reference to agriculture and industry. Detailed understanding of the basics concepts related to manufacturing and major manufacturing industries (selected countries) of the world. Understanding of the transport and trade. The students will get knowledge of basic concepts of geomorphology; slope. The students were known the importance of urban settlements through urban Geography. The students understood the types of Urban Settlements, Site and Situations. The students were familiar with an idea of relationship between human activities and urban development. Detail understanding of students regarding present urban problems and students are capable to handling of present problematic situations in urban areas. The students are developed as a good urban planner and environmental conservator |
| | DSC 12 Political Geography Paper No. XII | The students will get knowledge earth and its spheres; earth material, energy budget. The students are fully aware about the Political geography as a fundamental branch of Human Geography. The students are familiarized with the basics and fundamental concepts and Theories of Political Geography. The students are aware about resource conflicts and politics of displacement. |
