STUDENT MENTORING SYSTEM

Mentoring is essentially about extending necessary support to build in confidence and help the mentee to achieve all round development of the personality. Mentoring is not the same as training, teaching or coaching, and a mentor need not be a qualified trainer or an expert in the role the mentee carries out. The concept of mentor is essentially different from class teachers. He should possess the ability to listen and ask questions, which will lead to identify the course of action mentee need to, take in regards to their own development.

According to Oxford Dictionary mentor is an “experienced and trusted adviser”. Ideally, the role of mentor is of confidante who listens patiently and provides scope for mentee to understand the nature of problem and find solutions. He/she provides information, knowledge, and shares informal networks, provides an advice on career development, offers different perspectives, provides support and encouragement, provides an insight on work and career. He is a critical friend, a person with whom you share everything, offers guidance and advice in regards to qualifications, broadens the horizon, encourages self-reflection, helps mentees’ to identify areas for development.
