NATURAL DISASTER MANAGEMENT

21ST SEP

INAUGURATION

Principal,

Dr. A.R. Kulkarni
Vice Chairman
MEAI, Belgaum Chapter

Padmabhushan D.N. Wadgaonkar

The community is UNPREPARED for what will likely happen, not to mention the low probability of occurrence—high priority of adverse consequence event.

The community has NO DISASTER PLANNING SCENARIO or WARNING SYSTEM in place as a strategic framework for early threat identification and coordinated local, national, regional, and international countermeasures.

The community LACKS THE CAPACITY TO RESPOND in a timely and effective manner in the full spectrum of expected and unexpected emergency situations.

The community is INEFFECTIVE during recovery and reconstruction because it HAS NOT LEARNED from either the current experience or the cumulative prior experience.
